Experience

Feb 2018 - Present

Taken time off to expand my knowledge and skills by taking a number of JavaScript online courses on Udacity, Udemy and Pluralsight.

[Beamery | JavaScript Developer](#)

Nov 2017 - Feb 2018

- [Beamery Pages](#) - Created custom footers used by companies to be GDPR compliant using Angular 1.6, whilst proposing and making changes to the back-end for extensibility.
- [Talking Talent](#) - Re-architected Beamery's blog using Angular 2 and ngrx. Translated high-def invasion prototype into pixel-perfect code.
- Facilitated several brainstorming sessions between teams in London and San Francisco to illustrate challenges and devise solutions.

[Ticket Bank | JavaScript Developer](#)

Oct 2017 - Nov 2017

- [Ticket Bank App](#) - Development of a ticket donation charity platform prototype using Node, PostgreSQL and server-side rendering.
- Developed a RESTful API and systems for automating email verification, reviewing ticket requests and receiving new events notifications.

[Founders & Coders | JavaScript Developer](#)

Jun 2017 - Oct 2017

- Highly selective 16-week web development bootcamp in full-stack JavaScript. Worked on a total of 10 projects.
- Helped to run the next programme by designing workshops, running weekly meetups & mentoring the next cohort.
- [FAC-Share](#) | [Repo](#) - Created a resource sharing and discovery platform used by students to share useful web links via a Chrome extension.

Education

[Founders & Coders](#)

16-week JavaScript coding bootcamp.

[Mathematics, Statistics with Finance](#)

Attended Queen Mary, University of London

Skills

JavaScript, Node.js, HTML, CSS,
Angular 1/2, Git
